

SEE-THROUGH

MATERIALS

Piedmont Plastics® is Your *Clear Choice* for See-Through Performance Plastic Materials

As one of North America's largest wholesale distributors of clear, see-through plastics, we provide clear solutions for a wide range of applications, including security and protective guards, plastic barriers and retail signage.

With over 50 locations throughout the U.S. and Canada, we're here to help you find the right materials and offer the value-added services you need.

Which Material is Right for You?

Trusted for their strength, clarity, and versatility, acrylic, polycarbonate and PETG are among the top clear materials stocked by Piedmont Plastics. Learn more about each type of plastic below.

Acrylic

- Durable and lightweight
- Often used as an alternative to glass, recognized as trade brand name Plexiglas®
- Applications include aquariums, signage, retail displays, windshields, safety partitions and performance glazing
- Standard Lengths: 96 & 120 in.
- Standard Widths: 48, 60 & 72 in.
- Standard Thickness Size: 0.06, 0.125, 0.25, 0.5, .75, 1.0, 1.25 in.

Polycarbonate

- Nearly unbreakable, lightweight thermoplastic
- Often recognized as trade name Lexan®
- Applications include security windows, glazing, signs and displays, medical devices, riot shields and bullet resistant glass
- Standard Lengths: 96 & 120 in.
- Standard Widths: 48, 60 & 72 in.
- Standard Thickness Size: 0.06, 0.125, 0.25, 0.5 in., laminated .75, 1.0 & 1.25 in.

SEE-THROUGH

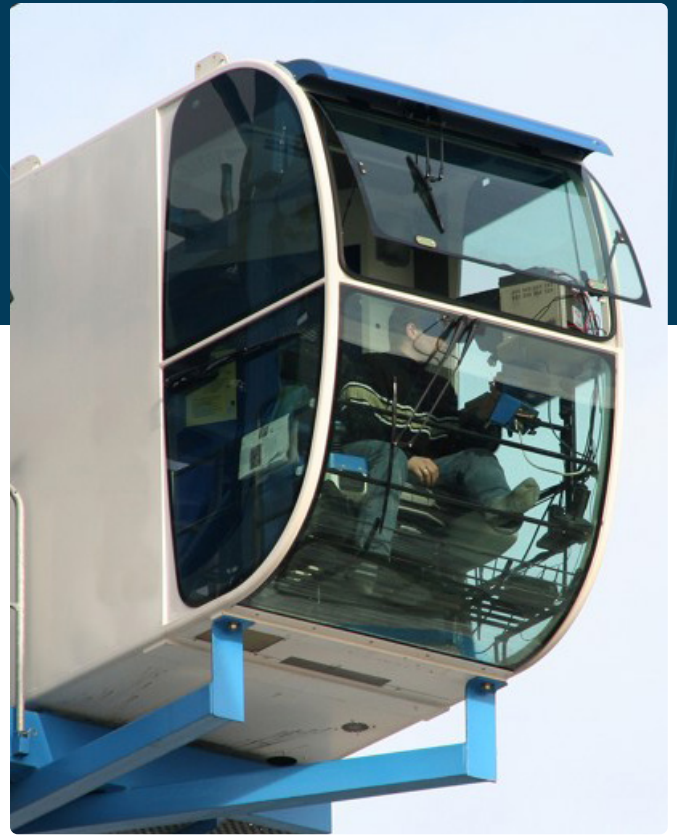

MATERIALS

PETG

- Strong and durable thermoplastic
- Chemical-resistant and FDA compliant
- Applications include signs, displays, display cases, safety shields and packaging materials
- Capable of deep draws and complex shapes
- Standard Lengths: 48, 72, & 96 in.
- Standard Widths: 12, 24, 48 in.
- Standard Thickness Size: 0.04 in – 0.5 in.
- Custom sheet sizes and thicknesses are available (based on volume run size)

Clear PVC

Piedmont also supplies clear PVC sheet, a strong and durable product that is suitable for specialized applications. While it's available in fewer sizes than the alternative clear plastic sheets, it provides reliable performance in many industrial settings.

Our Commitment

We are committed to providing every customer with the highest level of service in the industry. This commitment is more than providing you with a knowledgeable sales representative and the right product mix. It's about providing you with the absolute best clear solution, when you need it.
